

OFFICE CIRCULAR

Personality Development, General Awareness and Analytical Skills are the most important ingredients that decide the chances of selection of the students in Campus Interviews of leading companies.

It has been observed by past experience that students who undergo special training programmes on personality development are able to enhance their prospects for better placements in the companies of highest repute who visit the Institute for campus placement.

Keeping these objectives in mind, the Institute is offering a special training programme within the Campus titled “ **Campus Express-2010**” in collaboration with **M/s. Career Launcher** at most nominal cost of **Rs. 1250/- per student**. This training programme would be focused on all the aspects that are considered by the company during campus interviews.

The programme shall be introduced by Career Launcher at 3.25 PM in the Convention Hall of PG Block on Monday, September 8,2008. All the students of **pre-final year (2006-10) batch** are required to attend the Seminar that would enable them to understand the details of the programme. The students can get their doubts clarified as well as put forward their suggestions.

All the HODs and Industrial Coordinators are requested to make it convenient to attend the Seminar.
