NOTIFICATION

Sub: **New Revaluation Policy of IK Gujral Punjab Technical University Jalandhar.**

In order to further improve the academic standards and to bring more transparency and accountability in our examination system, university has evolved a new revaluation policy. This policy will be implemented from the date of its notification and has been designed to safeguard the academic interests of students. Through this policy, not only the existing provisions of revaluation have been improved, a new provision of challenge revaluation has also been added. The details are as under:

1. A student can apply for revaluation of his answer sheet within 21 days of result declaration, if he is not satisfied with First Marking.
2. If the Second Marking awards are up to 33% of maximum marks, the result is declared with higher value from First Marking & Second Marking.
3. If Second Marking awards are more than 33% of maximum marks, then % variation of Second Marking from First Marking has to be considered. In this case, if the % variation is up to 50%, the result is declared with higher value from First Marking & Second Marking. However, if the % variation is more than 50%, the copy is sent for Third Marking. In this case two closer values are determined from First Marking, Second Marking & Third Marking; and result is declared with higher value from amongst the two closer values.
4. For third marking cases, where the two closer values are having difference greater than 10% of maximum marks, the case may be sent for 4th marking. The result to be declared on the basis of higher value out of two closest values from 1st, 2nd, 3rd and 4th markings. But only that pair of values will qualify to be closer whose difference is within 10% of maximum marks. If closer values are not achieved even after 4th marking, the process be repeated further till nth marking to get the two closer values.

In order to control the variation, subsequent markings are got done from senior level faculty as under:
